Will this court case help me?

This settlement gives Medicaid to certain people whose Medicaid may have been closed before a disability review was completed. You may be able to get Medicaid now or for some time in the past if **all** of the following statements are true **and** you file a claim.

1. You had Medicaid because you were a child (under age 19), a young adult (age 19, 20, or 21), a pregnant woman, a parent, or you were acting as a parent for a child with Medicaid.
2. **On or after September 19, 2005**, your Medicaid stopped **or** was changed to a Medicaid deductible (spend down).
3. When your Medicaid stopped or was changed to a deductible, **either**
 - You had already applied for SSI or Social Security Disability **or**
 - DHS had information showing you had a disability.
4. **Before** your Medicaid stopped or changed to a deductible, the Michigan Department of Human Services (DHS) **either**
 - Did not check to see if you could get disability Medicaid **or**
 - Did not send you a letter telling you why you could not get disability Medicaid.

If you cannot answer yes to **all** four statements above, you cannot get Medicaid under this settlement.

If you can answer yes to **all** four statements, you may be able to get Medicaid under the settlement. You must first file a Medicaid Lawsuit Claim to see if you are eligible.

Letters were mailed to people who may be eligible for Medicaid because of this settlement.

If you did not get a letter at your current address and **all** of the statements above are true, call 1-866-262-0430 to see if you may file a claim. You must call before **October 20, 2011**. If you can file a claim, DHS will send you a form to use.

If you file a claim form, DHS will send you a letter telling you if you may get Medicaid. DHS may ask you for more information before deciding on your claim.

The settlement does not give Medicaid or pay medical bills for any time before May 14, 2009.
